Product Details It's not always easy to operate in a secure, anonymous, clandestine manner. This is especially true when you are trying to get out of the city and cross a flooded river in one of the most idyllic, scenic, rural settings you will ever find. But when the stakes are this high, taking the necessary precautions should be your highest priority. This PAYDAY 2: Gage Chivalry Pack comes with the following key items: Your key survival items, including the ProRest T-Rex (additional cost is your better safe than sorry), the handy grappling hook projectile weapon to escape tight spots, the Pointman Utility System (P.U.S.), the TRISS Tactical Tape, and the Concealable Keyboard will act as your keys that open the same safe that the Broker stole in the main game. The "Key Piece" is a red matter that confirms your identity. It is to be included with the key, found by the safe, that lets you safely get into the Broker's safe. The Paintball Tank is the main countermeasure item. It's there to neutralize your targets with three very effective paintball pellets. The "Target item" is your denial item. It will be used to deceive the Broker's pursuers while you escape. A false Target will trigger a random alert, causing the Broker to dispense either afterburners (chase car) or a strike team. The Sabot is a potent grenade launcher that is ready to be attached to your assault rifle, lever action cannon, cannon, pistol, and precise melee attacks. The directional flare will alert the Broker that you might have come under attack. This will trigger an immediate assault from the Broker's pursuers. The ROEBUCK Shield can be used as a cloak weapon for when you have no other way to conceal yourself or your equipment. The laptop bag is an optional item that can be used to conceal some very useful equipment. Included with the Gage Chivalry Pack is a red matter key. This is for use in conjunction with your unique weapon key. Add the "Key Piece" and the "Target item" to get into the Broker's safe. Includes: ProRest T-Rex Pointman Utility System (P.U.S.) Tactical Tape Concealable

Dive Brief: News outlets from around the world are reporting on Tesla's acquisition of SolarCity. Elon Musk, founder and chief executive officer of Tesla Motors and

SpaceX, said the addition of SolarCity is meant to accelerate the rate of solar adoption, particularly in the United States. SolarCity stock jumped more than 7% on the news, which took place on the same day that Tesla released its first-quarter earnings report. The company reported an adjusted net income of \$58.2 million, or 8 cents a share, in the first three months of 2016, compared to a loss of \$42.7 million, or 5 cents a share, in the same period a year ago. Dive Insight: Tesla's first-quarter earnings report was solid, with better-than-expected sales and no major hurdles in the way of production. For Tesla, the addition of SolarCity may aid in addressing its ongoing concern of scaling production, and in securing a foothold in residential solar. The SolarCity deal will be a "bit of a loss leader" that will benefit in the long run, Bill Wehl, an analyst with Bloomberg New Energy Finance, told Energy-

Storage.net. "It's not their main strategic focus, but it's not trivial either." Tesla CEO Elon Musk noted that the company is hoping to acquire other businesses — including another solar company — to help Tesla secure economies of scale in its delivery of solar panels and battery systems. "A critical element of making solar and battery systems more affordable is to bring the costs down as much as possible, and to do that, we need to buy as many solar panels and batteries as possible," Musk said in a statement. Musk's statement might seem
